

The Mayaro Fire Station

Safety and Peace of Mind, Delivered

The New Mayaro Fire Station

On Sunday 30th August 2015, the brand new Mayaro Fire Station was commissioned. The people of Mayaro now have a state-of-the-art fire station to serve their community and surrounding environment. The Fire Station will provide modern, safe, functional and efficient facilities to meet the requirements of today's demands.

This latest addition to the Trinidad and Tobago Fire Services (TTFS) is one of 16 new fire stations to be brought on stream shortly. With the delivery of a contemporary, highly equipped fire station to protect their homes and businesses, Mayaro residents are now able to enjoy an unprecedented sense of security.

Features:

- Two-storey, steel-reinforced concrete structure
- Fully air-conditioned
- Wired glass windows throughout
- Carbon monoxide monitors
- Special dry room to store fire kits
- Fuel station, generator room, appliance room, laundry, switch room, small gear storage and repair room, rescue equipment storage room
- Special-purpose accommodation for the needs of the TTFS
